Re: ND-2019-38-G: Correction to Allowable Ex Parte Briefing on the Atlantic Coast Pipeline

Dear Ms. Boyd,

We would like to correct a misstatement made during our December 18, 2019 Allowable Ex Parte Briefing on the Atlantic Coast Pipeline. Eddy Moore stated that the capacity on Transco available to South Carolina is “in the realm of...over 6 billion cubic feet, per day.” (Briefing Tr. 12:1). This amount is actually the capacity available into and through Transco Zone 5, which includes North Carolina, South Carolina, and Virginia.<sup>1</sup> The capacity available to South Carolina is approximately 4.5 billion cubic feet per day, including path capacity.<sup>2</sup>

Sincerely,

Kate Lee  
Southern Environmental Law Center
